GOLF TROLLEYS

With so much to carry around the golf course you need to be sure to get yourself a good golf trolley. You need pockets for your waterproof golf clothing and golf sweaters, space for your golf towels and golf umbrellas and obviously some room for your golf clubs and golf balls. So what do you need to think about when it comes to getting yourself a good golf trolley? There are two types, the pull trolley and the electric trolley, both of which will be discussed in greater detail for you to make a great choice to aid your golf.

Push/Pull Golf Trolley

Pull/Push Golf Trolley are a fantastic energy saving device; made from lightweight metal they are designed to increase your comfort as you make your way to the golf green. The Pull/Push golf Trolley come with wheels, a platform to fit your golf cart bag on and an ergonomically designed handle for greater ease as you complete your 18 holes on golf course.

We have in stock four great pull/push trolleys as shown below:

Electric Golf Trolley

You can save yourself even more energy round the golf course with an electric golf trolley; a fantastic investment for your golf where a simple button does all the work for you, allowing you to place a greater focus on your golf swing. The electric golf trolley comes with a motor and battery to propel it round the golf course with the battery normally needing to be charged after each golf round.

We have in stock two of the best electric trolleys as shown to the right:

We even stock the Motocaddy S3 golf trolley with Lithium battery; a revolutionary product that can power up the steepest slope on the golf course while being exceptionally quiet and easy to control. You have 9 different speed settings with a battery that is able to last 36 holes on one charge. This golf trolley is bound to become your new best friend!

So how do you decide what you want? An electric golf trolley might be better for a golfer with a bad back or someone who wants to exert a little less energy on the golf course. While a pull trolley is less of a financial investment to your golf that can be taken apart quickly and easily. At the end of the day both make your round of golf that little bit easier, saving you of any unwanted aches and pains.

No one takes pleasure from lugging their golf bag from one hole to the next so be sure to add a golf trolley to your golfing gear. You will feel the benefits as you race round the golf course to a new handicap!

ELECTRIC TROLLEY SERVICING AND REPAIRS

RedKite Golf now offer a service to keep your Electric Golf Trolley **efficient & well maintained**. We can service and repair many types of trolley including:
